

I write to you because I want K-LOVE radio to stay. If you put LPFM stations in place you will destroy a valuable station. This station gives hope and positive words to the community at large. There are no other stations in San Diego county that play music without commercials that can say that. Never in my life have I been able to listen to a station that gives such hope and joy to people than this one does. It has helped me through some very troubled times in my life and I know if it is gone I will be all the weaker for it. Please reconsider this vote.
